SUMMARY OF THE REASONS FOR DECISION:

The computer image file entitled *ababy49.jpg/ababy50.jpg* is classified as:
Objectionable.

The publication consists of two files in JPEG format, each containing a colour photographic image, which together form a composite image. The publication is treated here as a single computer image file.

The computer image file promotes and supports the exploitation of children for sexual purposes. This is because it shows a naked pre-pubescent girl posing on a bed, holding a large doll, with her naked body clearly visible. Part of her pubic area can be seen. The level of nudity and the context of the image suggest it is intended to sexually arouse the viewer. The image encourages the notion that adults can use children for sexual ends, and upholds and strengthens that notion by showing a child being exploited.

The provisions of the New Zealand Bill of Rights Act 1990 (NZBR Act) have been taken into account in determining this classification. As the publication falls under s3(2) of the Films, Videos, and Publications Classification Act 1993, it is deemed to be objectionable. An objectionable classification places a limit on s14 of the NZBR Act. However, in relation to this publication, it is considered to be a reasonable limit prescribed by law that can be demonstrably justified in a free and democratic society.
